1. The count of in-quota imports for butter, cream and dry whey is based on permits issued by the Export and Imports Controls Bureau (EICB). The count of in-quota imports for wheat, barley and their products is based on data from Revenue Canada. These figures may not equal the quantities reported by Statistics Canada, International Trade Division, since the in-quota imports are tabulated according to the unit for the tariff quota (e.g., grain equivalent basis), and not on a product weight basis.
