COMMUNICATION FROM URUGUAY

Outline of the Chairman's Report to the General Council

The following communication has been received from the delegation of Uruguay with the request that it be circulated to the Members of the Council for Trade in Services.

In the context of the negotiations on trade in services under GATS Article XIX, the Permanent Delegation of Uruguay hereby requests the inclusion of the item "Outline of the Chairman's Report to the General Council" in the agenda for the forthcoming Special Session of the Council for Trade in Services in December as well as for subsequent special sessions.

The purpose of putting this item (which is already on the agenda of the Special Session of the Committee on Agriculture) on the agenda is to enable the Council for Trade in Services to have a more complete idea of the content of the report which the Chairman will submit to the General Council. Moreover, the Permanent Delegation of Uruguay also requests, as it did at the General Council meeting on 10 October 2000, that the report of the Chairman of the Council for Trade in Services be submitted to the General Council in writing and as an official document for circulation to delegations sufficiently in advance of the corresponding meeting of the General Council.
