## ACCESSION OF CROATIA

### Communication from Croatia

#### Revision

The following revised information on domestic support and export subsidies in agriculture has been received from the Ministry of Economic Affairs of the Republic of Croatia.

EXPLANATIONS TO CHANGES IN DOCUMENT WT/ACC/SPEC/HRV/1

1. All commitments are expressed in ECU according to Croatia's Initial Offer already submitted to WTO Secretariat.

2. In Table DS:1 three years average is given for the measures included in "Green box".

Under (k) specific support to agricultural production under paragraph 3 of Annex 2, Agreement on Agriculture is included.

3. Table DS:5 instead of external reference price which was calculated on the basis of adjusted C.I.F. import price, domestic export price was used because Croatia was net exporter of said product in the reference period (paragraph 9 Annex 3 of Agreement on Agriculture).

4. Table DS:9 in non-specific budget expenditures for support to agricultural production within the item "Farm crediting at preferential interest rates" value of support calculated on the basis of budget expenditure for Special account for crediting of development and reconstruction of agriculture was added.

5. Table DS:6 data concerning "Non exempt direct payments" (column 8) are partly changed because of establishment of exact amounts paid for incentives and subsidies for the production in calendar year (1 January to 31 December). Accordingly in the supplement to this material "Overview of production and input subsidies in Croatian agriculture" for years 1994, 1995 and 1996, with exactly established levels of incentives is given.

"Input subsidies in fisheries" are excluded.

6. In Table DS:7 columns 4 and 5 "Other product specific budgetary outlays" and "Other product specific support" exact amounts of subsidies paid out for certain products and sum of other measures in cattle breeding are established for calendar year (1 January to 31 December) and therefore new data for year 1995 differ to some extent to those previously given.

7. In Table DS:9 column 3 (fertilizers) the exact amount of paid subsidies for calendar year (1 January to 31 December) is established and therefore new data for year 1995 also differ to some extent to those previously supplied.

8. In comparison to previous table the complete document is supplemented by Table ES:1 in which three years averages for export subsidies are given.
