## NOTIFICATION

### Addendum

The following communication, dated 24 August 2004, is being circulated at the request of the Delegation of Canada.

---

#### Notice No. SMSE-013-04 — Amendment 4 of RSS-210

Notice is hereby given that Industry Canada is amending Radio Standards Specification 210 (RSS-210), which sets out minimum requirements for the certification of low-power transmitters and receivers.

This RSS was amended in order to include new technical requirements that will allow the certification of General Mobile Radio Service (GMRS) devices operating at a maximum effective radiated power of 2 watts. GMRS equipment that provides a repeater capability may not be certified. The amended version is:

#### RSS-210 Issue 5, Amendment 4: General Mobile Radio Service (GMRS) Devices

The application for certification of GMRS radios must be in accordance with spectrum policy SP 462/467 MHz as it relates to the GMRS Alliance (GMRSA) frequency displacement program.

The above-mentioned document will come into force as of 21 August 2004.

Interested parties may submit comments on this document by 19 November 2004 to the Canadian Enquiry Point.
