

**Committee on Trade and Development**

**WTO MINISTERIAL TRADE CONFERENCE  
FOR CENTRAL AND SOUTH EAST EUROPE**

ZAGREB, CROATIA

11-12 June 2002

Corrigendum

The following text should be added, as the final bullet, to paragraph 15:

- Some participating countries stressed that their approaches and positions in the current negotiation round are strongly influenced by the fact that they had only recently acceded to the WTO. In this process extensive market-access commitments had been made, which had explicitly been recognized in paragraph 9 of the Ministerial Declaration. It was felt that this fact should be seriously taken into account and adequately reflected in the Doha Development Agenda negotiations including in different modalities for future market-access commitments.
