RÈGLEMENT (CEE) N° 2247/73 DE LA COMMISSION

du 16 août 1973

relatif au contrôle des vins de qualité produits dans des régions déterminées

LA COMMISSION DES COMMUNAUTÉS
EUROPÉENNES,

vu le traité instituant la Communauté économique
européenne,

vu le règlement (CEE) n° 816/70 du Conseil, du 28
avril 1970, portant dispositions complémentaires en
matière d'organisation commune du marché viti-vini-
cole ⁽¹⁾, modifié en dernier lieu par le règlement (CEE)
n° 2680/72 ⁽²⁾, et notamment son article 29 para-
graphe 3,

vu le règlement (CEE) n° 817/70 du Conseil, du 28
avril 1970, établissant des dispositions particulières re-
latives aux vins de qualité produits dans des régions
déterminées ⁽³⁾, modifié en dernier lieu par le règle-
ment (CEE) 2236/73 ⁽⁴⁾, et notamment son article 13
paragraphe 2 et son article 16,

considérant qu'il convient de prévoir, dans le but de la
plus grande efficacité, que le contrôle des v q p r d soit
confié dans chaque État membre à un ou plusieurs
organismes déterminés et qu'une collaboration étroite
des organismes des différents États membres entre eux
et avec la Commission soit assurée; qu'il est néces-
saire que ces organismes soient dotés de certains pou-
voirs à l'égard des particuliers leur permettant d'accom-
plir leurs tâches;

considérant que, afin d'harmoniser les exigences du
contrôle des v q p r d avec celles de leur libre circula-
tion dans toute la Communauté, il apparaît indiqué de
prévoir que la qualité de v q p r d et le droit de ces
vins à un nom déterminé résultant, sauf preuve
contraire, du document d'accompagnement ou, à dé-
faut, des documents commerciaux;

considérant que les obligations à charge des États
membres et des particuliers en vertu de l'article 13 du
règlement (CEE) n° 817/70 ainsi que du présent règle-
ment rendent nécessaire la connaissance la plus large
possible des noms des v q p r d; qu'il convient à cette
fin que la Commission assure la publication au *Journal officiel des Communautés européennes* de ces
noms, tels qu'ils lui sont communiqués par les États
membres, sans que cela préjuge la question de la
conformité des dispositions qui les régissent avec les
dispositions communautaires;

considérant que les mesures prévues au présent règle-
ment sont conformes à l'avis du Comité de gestion
des vins,

A ARRÊTÉ LE PRÉSENT RÈGLEMENT:

COUNCIL REGULATION (EEC) No 2392/89

of 24 July 1989

laying down general rules for the description and presentation of wines and grape musts

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 822/87 of 16 March 1987 on the common organization of the market in wine ⁽¹⁾, as last amended by Regulation (EEC) No 1236/89 ⁽²⁾, and in particular Articles 72 (1) and 79 (2) thereof,

Having regard to the proposal from the Commission ⁽³⁾,

Whereas Council Regulation (EEC) No 355/79 of 5 February 1979 laying down general rules for the description and presentation of wines and grape musts ⁽⁴⁾, as last amended by Regulation (EEC) No 1237/89 ⁽⁵⁾, has been substantially amended on several occasions; whereas, therefore, the provisions in question should, in the interest of clarity be consolidated;

Whereas Article 72 of Regulation (EEC) No 822/87 lays down certain rules governing the description of certain wines in particular cases and provides for the adoption of general rules on the description and presentation of certain wine products;

Whereas the purpose of any description and presentation should be to supply potential buyers and public bodies responsible for organizing and supervising the marketing of the products concerned with information which is sufficiently clear and accurate to enable them to form opinion of the products;

Whereas it is important to harmonize as far as possible the various Community provisions on the description and presentation of foodstuffs and particularly those on the wine sector;

Whereas the Community rules on the description and presentation of wines and grape musts are to a large extent based on the national rules formerly applied by the Member States; whereas the national rules in question were based on widely differing approaches; whereas some Member States gave priority to accurate consumer information and to the

freedom of action of the trade, while others endeavoured to combine these aspects with the need to protect producers on their territory against distortions of competition; whereas, with the aim of reconciling these different approaches as far as possible and of avoiding too divergent interpretations, it was deemed appropriate to lay down fairly comprehensive rules on description; whereas, to ensure that these rules are effective, it should also be laid down as a principle that only the details specified in the rules in question or in the relevant implementing rules are permitted for the description of wines and grape musts;

Whereas, in the case of the description, a distinction should be made between mandatory information necessary to identify the product and optional information designed mainly to indicate the special properties of the product or to characterize it; whereas, in view of the importance and scope of the problem, steps should be taken to ensure that the information provided is as complete as possible and that it takes account of the customs and traditional practices in the Member States and in third countries and complies with Community law;

Whereas, in view of the nature of production conditions in the different wine-growing areas and of traditional practices in some Member States, provision should be made to enable the Member States, in respect of the products obtained on their territory, either to make mandatory some information which is optional under Community provisions, to prohibit it or to limit its use; whereas it must also be specified that, in order to ensure the free movement of goods, each Member State must permit the description of products originating in other Member States and put on the market on its territory if it is in accordance with Community provisions and permitted in the producer Member State pursuant to this Regulation;

Whereas, with a view to standardizing the description and presentation of Community wines and grape musts intended for export to third countries, provision should be made for the possibility of laying down supplementary or exceptional rules in respect of these products insofar as the legislation of the third countries concerned makes this necessary;

Whereas it is important to specify the cases in which indication of the bottler and of the consignor on the label is required by means of a code, in order to avoid confusion in the consumer's mind as to the real origin of the wine; whereas it is furthermore appropriate to regulate the cases in which, in order to facilitate commercial transactions, codes may be used on a voluntary basis to indicate information on bottling and on the consignor;

⁽¹⁾ OJ No L 84, 27. 3. 1987, p. 1.

⁽²⁾ OJ No L 128, 11. 5. 1989, p. 31.

⁽³⁾ OJ No C 214, 16. 8. 1988, p. 37.

⁽⁴⁾ OJ No L 54, 5. 3. 1979, p. 99.

⁽⁵⁾ OJ No L 128, 11. 5. 1989, p. 32.

Whereas Council Directive 79/112/EEC of 18 December 1978 on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs for sale to the ultimate consumer⁽¹⁾, as last amended by Directive 89/395/EEC⁽²⁾, provides for the introduction of the principle of the compulsory indication of the actual alcoholic strength of all alcoholic beverages; whereas information on the alcoholic strength of wines and grape musts, particularly on the actual alcoholic strength, appears necessary in order to describe on the labelling the nature of the product and thus to facilitate consumer choice; whereas provision should therefore be made that a compulsory indication of the actual alcoholic strength be given for the products in question;

Whereas it is important that the description of wines and grape musts may be made in each of the official Community languages so as to ensure compliance with the principle of the free movement of goods over all its territory; whereas it is, however, necessary that the required information be provided in such a manner that the end user can understand it even if it appears on the label in a language other than the official language of his country; whereas the names of geographical units should be indicated solely in the official language of the Member State where the production of the wine or of the grape must has taken place, so that the product thus described is put on the market under its traditional name; whereas, taking into account the particular difficulties of understanding information in Greek which stem from the fact that it is not written in the Roman alphabet, authorization shall be given for such information to be repeated in one or more other official Community languages;

Whereas natural conditions at the place where the vineyard which supplied the grapes used as a raw material in their manufacture is situated are a factor determining the quality of wine and must; whereas the variety of vine from which the grapes used were obtained and the weather conditions during the year in which the grapes were harvested are also factors which determine the quality of a wine or must; whereas the name of the place where the vineyard is situated or the name of the geographical unit in which that place is located, together with the name of the vine variety or the year in which the grapes were harvested, constitute information which is particularly valuable to the purchaser of the product; whereas rules should therefore be laid down concerning the

use of such information in the description of wines and grape musts;

Whereas, with a view to establishing fair conditions of competition between the different wines and grape musts, elements which are liable to create confusion or false opinions in the minds of persons should be prohibited in the description and presentation of those products addressed to such persons; whereas provision should be made in particular for similar prohibitions on trade marks used for the description of wines and grape musts; whereas, with a view to providing effective protection to geographical names used for the description of wine products, trade marks should be abolished which contain wording that is identical to a geographical name used to describe a table wine, a quality wine produced in a specified region, hereinafter referred to as 'quality wine psr', or an imported wine, the description of which is regulated by Community provisions, without the product described by the trade mark in question being entitled to such a description;

Whereas, however, in order to avoid excessive severity, it is appropriate to tolerate, in certain cases and for a transitional period, the use of trade marks registered by 31 December 1985 which are identical to the name of a geographical unit smaller than a specified region used to describe a quality wine psr or a geographical unit used to describe a table wine referred to in Article 72 (2) of Regulation (EEC) No 822/87;

Whereas, for the sake of harmonization, provisions concerning the role of control authorities in the wine sector should also be better coordinated in the case of breach of Community provisions on the description and presentation of products in that sector;

Whereas the rules to be adopted concerning the presentation of the products referred to in this Regulation should at the same time take into account the need to ensure that these products continue to meet high standards of quality,

HAS ADOPTED THIS REGULATION:

(c) may, without prejudice to the provisions in (a) and (b) and provided the Member State within whose territory the table wine is bottled has so authorized, be used to give the information referred to in Article 2 (1) (c). Such use shall be subject to the condition that the label gives in full the name or business name of a person or group of persons other than the bottler involved in the commercial distribution of the table wine and the name of the local administrative area or part thereof in which the head office of the person or group of persons is situated.

5. The information specified:

- in Article 2 (1) shall be given in one or more other official languages of the Community so that the final consumer can easily understand each of these items of information,

Such information may:

- (b) one of the terms mentioned in Article 2 (3) (i) shall be indicated in accordance with the provisions laid down therein.

⁽¹⁾ OJ No L 84, 27. 3. 1987, p. 59

Such an indication may be repeated in one or more other official languages of the Community for table wines originating in Greece;

(c) it may be decided that the information as to:

- the type of product or a particular colour, as referred to in Article 2 (2) (h),
- the method of production of the table wine, as referred to in Article 2 (3) (d), and

- the other information referred to in the first subparagraph, in the case of table wines put on the market in their territory,

to be given also in a language other than an official language of the Community where the use of such language is traditional and customary in the Member State concerned or in a part of its territory.

For the description of table wines intended for export, provision may be made under the implementing rules for other languages to be used.

Article 4

1. In the description of a table wine on the labelling, the name of a geographical unit which is smaller than the Member State, as referred to in Article 2 (3) (b), shall be taken to mean the name of:

- a small locality or group of such localities,
- a local administrative area or part thereof,
- a wine-growing subregion or part thereof,
- a region other than a specified region.

The geographical units referred to in the first subparagraph shall constitute production areas within the meaning of the first subparagraph of Article 72 (3) of Regulation (EEC) No 822/87.

2. In the case of table wines produced in their territory and described in accordance with Article 72 (2) and (3) of Regulation (EEC) No 822/87, the producer Member States may prohibit the use of one or more names of geographical units which are smaller than the Member State, as referred to in paragraph 1.

3. The rules on use referred to in Article 2 (3) (i) shall provide that the terms be used in conjunction with a specific geographical reference and reserved for table wines meeting certain production requirements, particularly as regards vine varieties, minimum natural alcoholic strength by volume and organoleptic characteristics.

Article 39

1. For the purposes of Titles I and II, 'packaging' shall mean protective wrappings such as paper, straw coverings of all kinds, cardboard boxes and crates, used in the transport of one or more containers.

2. Apart from instructions necessary for consignment or markings appearing on packaging carried out by retailers in the presence of the purchaser, the packaging may not bear information relating to the packed product which does not conform to Articles 2, 11, 20, 25, 26 and 27.

TITLE II
GENERAL PROVISIONS

Article 40

1. The description and presentation of the products referred to in this Regulation, and any form of advertising for such products, must not be incorrect or likely to cause confusion or to mislead the persons to whom they are addressed, particularly as regards:

- the information provided for in Articles 2, 11, 20, 25, 26 and 27. This shall apply even if the information is used in translation or with a reference to the actual provenance or with additions such as 'type', 'style', 'method', 'imitation', 'brand' or similar,
- the characteristics of the products, and in particular their nature, composition, alcoholic strength by volume, colour, origin or provenance, quality, the vine variety, vintage year or nominal volume of the containers,
- the identity and status of the natural or legal persons or group of persons who have been or are involved in the production or distribution of the product in question, in particular the bottler.

2. Where the description, presentation and advertising of the products referred to in this Regulation are supplemented by brand names, such brand names may not contain any words, parts of words, signs or illustrations which:

- (a) are likely to cause confusion or mislead the persons to whom they are addressed within the meaning of paragraph 1; or
- (b) are:
 - liable to be confused by the persons to whom they are addressed with all or part of the description of a table wine, of a quality wine psr, or of an imported wine whose description is governed by Community provisions or with the description of any other product referred to in the first subparagraph of Article 1 (1) and the first subparagraph of Article 36 (1), or
 - identical to the description of any such product unless the products used for making the final products referred to above are entitled to such description or presentation.

Moreover, the labelling used for the description of a table wine, a quality wine psr or an imported wine may not bear brand names containing words, parts of words, signs or illustrations which:

(a) in the case of:

- table wines, include the name of a quality wine psr,
- quality wines psr, include the name of a table wine,
- imported wines, include the name of a table wine or a quality wine psr;

(b) in the case of table wines described in accordance with Article 72 (2) and (3) of Regulation (EEC) No 822/87, quality wines psr or imported wines, contain false information, particularly with regard to geographical origin, vine variety, vintage year or a reference to superior quality;

(c) in the case of table wines other than those referred to in (b), contain information concerning geographical origin, vine variety, vintage year or superior quality;

(d) in the case of imported wines, may cause confusion with an illustration used to distinguish a table wine, a quality wine psr or an imported wine on the list referred to in Article 26 (1).

3. By way of derogation from point (b) of the first subparagraph of paragraph 2, the holder of a registered trade mark for a wine or a grape must which is identical:

- to the name of a geographical unit smaller than a specified region used to describe a quality wine psr; or
- to the name of a geographical unit used to describe a table wine referred to in Article 72 (2) of Regulation (EEC) No 822/87, or
- to the name of an imported wine described by means of a geographical indication referred to in Article 26 (1),

may, even if he is not entitled to use such a name pursuant to the first subparagraph of paragraph 2, continue to use that trade mark until 31 December 2002, provided that the trade mark in question:

- (a) was registered not later than 31 December 1985 by the competent authority of a Member State in accordance with the legislation in force at the time of registration; and
- (b) has actually been used without interruption since its registration until 31 December 1986 or, if registration took place before 1 January 1984, at least since the latter date.

Trade marks complying with the conditions of the first subparagraph may not be invoked against the use of the

names of geographical units used to describe a quality wine psr or a table wine.

The Council, acting by a qualified majority on a proposal from the Commission before 31 December 2002, shall decide whether to extent the time limit referred to in the first subparagraph.

4. Member States shall communicate to the Commission the trade marks referred to in paragraph 3 as and when they are informed thereof.

The Commission shall forward that information to the competent authorities of the Member States designated to verify compliance with Community provisions in the wine sector.

Article 41

If necessary, rules may be adopted to govern the use of the control numbers referred to in Article 11 (2).

Article 42

For the purposes of the monitoring and control of products to which this Regulation applies, the competent authorities may, with due regard to the general rules of procedure adopted by each Member State, require the bottler or a person who has been involved in distribution and who is indicated either in the description or on the presentation of those products to furnish proof of the accuracy of the information used in the description or the presentation concerning the nature, identity, quality, composition, origin or provenance of the product concerned or of the products used in its production.

Where such a request is made by:

- the competent authority of the Member State of establishment of the bottler or the person who is involved in distribution and who is indicated either in the description or the presentation of the products, proof shall be required directly of such persons by that authority,
- the competent authority of another Member State, that authority shall, within the framework of direct cooperation between them, provide the competent authority of the country of establishment of the bottler or the person who is involved in distribution and who is indicated either in the description or the presentation of the products with all the information necessary to enable the latter authority to require such proof; the requesting authority shall be informed of the action taken as a result of its request.

If the competent authorities find that such proof is not provided, the information in question shall be regarded as not complying with this Regulation.

Article 43

1. The appellation:

- (a) 'wine' shall be restricted to products conforming to the definition of point 10 of Annex I to Regulation (EEC) No 822/87;
- (b) 'table wine' shall be restricted to products conforming to the definition given in point 13 of that Annex.

2. Without prejudice to the provisions for the harmonization of laws, the possibility for Member States to allow

— the use of the word 'wine' accompanied by the name of a fruit and in the form of a composite name to describe products obtained by the fermentation of fruit other than grapes,

— other composite names including the word 'wine'

shall not, however, be affected by paragraph 1.

Should such composite names be used, any confusion with the products referred to in paragraph 1 must be avoided.

Article 44

1. Where the description or presentation of the products does not conform to the provisions of this Regulation or to the detailed rules adopted for its implementation, the products concerned may not be held for sale or put on the market in the Community or exported.

However, in the case of products intended for export derogations from this Regulation may:

- be authorized by the Member States where the legislation of the importing third country so requires,
- be provided for in the implementing provisions in cases not covered by the first indent.

2. The Member State in whose territory the product whose description or presentation does not conform to the provisions referred to in paragraph 1 is located shall take the necessary steps to impose penalties in respect of infringements committed, according to their gravity.

The Member State may, however, grant an authorization for the product to be held for sale, put on the market in the

Community or exported, provided that its description or presentation is changed to conform to the provisions referred to in paragraph 1.

2. References to the repealed Regulation shall be construed as references to this Regulation and shall be read in accordance with the correlation table in the Annex.

Article 45

COUNCIL REGULATION (EEC) No 3886/89

of 11 December 1989

amending Regulation (EEC) No 2392/89 laying down general rules for the description and presentation of wines and grape musts

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 822/87 of 16 March 1987 on the common organization of the market in wine ⁽¹⁾, as last amended by Regulation (EEC) No 1236/89 ⁽²⁾, and in particular Article 72 (1) thereof,

Having regard to the proposal from the Commission,

Whereas, bearing in mind the judgment of the Court of Justice of the European Communities in Case 311/87 concerning the use of the term 'Erzeugerabfüllung' ⁽³⁾, it is appropriate for some clarification to be given, in Regulation (EEC) No 2392/89 ⁽⁴⁾, of the rules governing the indication, on the labelling of a table wine or of a quality wine produced in a specified region, that the wine was bottled at the production stage; whereas, with regard to groups of vineyards, such a statement presupposes that the various stages of production have been carried out, at least as from the grape-pressing stage, under the control of the producer; whereas, therefore, the statement in question should be allocated to a group of vineyards only if it has itself carried out the winemaking process of the wine covered by that statement or if it has bottled a wine made from the wine of one of its members;

Whereas, in order to avoid all ambiguity in the application of Council Directive 85/339/EEC of 27 June 1985 on containers of liquids for human consumption ⁽⁵⁾, in particular as regards the provisions relating to recycling and refilling, it should be specified in Article 38 of Regulation (EEC) No 2392/89 that the descriptions, signs and marks which appear on the containers in compliance with the provisions of that Directive do not form part of the labelling of wines and grape musts,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EEC) No 2392/89 is hereby amended as follows:

1. Article 2 (3) (f) is replaced by the following:

'(f) a statement that the wines were bottled:

⁽¹⁾ OJ No L 84, 27. 3. 1987, p. 1.

⁽²⁾ OJ No L 128, 11. 5. 1989, p. 31.

⁽³⁾ OJ No C 300, 25. 11. 1988, p. 8.

⁽⁴⁾ OJ No L 232, 9. 8. 1989, p. 13.

⁽⁵⁾ OJ No L 176, 6. 7. 1985, p. 18

- either at the vineyard where the grapes used were harvested and made into wine, or
- in a group of vineyards, provided that the wine in question was produced by the vineyards belonging to that group or by the group itself, from grapes or must produced in those vineyards, or
- in an undertaking situated in the wine-growing area indicated, with which the vineyards where the grapes used were harvested are connected as members of a group of vineyards and which made wine from the said grapes';

2. Article 11 (2) (q) is replaced by the following:

'(q) a statement that the wines were bottled:

- either at the vineyard where the grapes used were harvested and made into wine, or
- in a group of vineyards, provided that the wine in question was produced by the vineyards belonging to that group or by the group itself, from grapes or must produced in those vineyards, or
- in an undertaking situated in the specified region indicated or in the immediate vicinity of that region, with which the vineyards where the grapes used were harvested are connected as members of a group of vineyards, and which made wine from the said grapes';

3 the following indent is added to the second subparagraph of Article 38 (1):

'are laid down by the provisions of the Member States in the framework of the application of Council Directive 85/339/EEC of 27 June 1985 on containers of liquids for human consumption (*).

(*) OJ No L 176, 6. 7. 1985, p. 18.'

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

However, Article 1, points 1 and 2, shall apply from 1 March 1990.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EEC) No 3201/90

of 16 October 1990

laying down detailed rules for the description and presentation of wines and grape musts

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

frequently been amended; whereas, in the interests of clarity, and on the occasion of further amendments, the rules in question should be consolidated;

Having regard to the Treaty establishing the European Economic Community,

Whereas, in applying rules concerning the description and presentation of wines, the traditional and customary practices of the Community wine-growing regions should be taken into account to the extent that the traditional and customary practices are compatible with the principles of a single market; whereas it is also necessary to avoid any confusion in the use of expressions employed in labelling and to ensure that the information on the label is as clear and complete as possible for the consumer;

Having regard to Council Regulation (EEC) No 822/87 of 16 March 1987 on the common organization of the market in wine ⁽¹⁾, as last amended by Regulation (EEC) No 1325/90 ⁽²⁾, and in particular Articles 72 (5) and 81 thereof,

Whereas, in order to allow the bottler some freedom as regards the manner in which he presents the mandatory information on wine labels, and to permit the use of additional labels for all the mandatory information required on imported wines, it should be laid down that such information may be grouped together in the same field of vision rather than on a single label;

Whereas Council Regulation (EEC) No 2392/89 ⁽³⁾, as amended by Regulation (EEC) No 3886/89 ⁽⁴⁾, lays down general rules for the description and presentation of wines and grape musts; whereas implementing legislation must be adopted laying down specific and detailed rules in accordance with the principles defined therein and with those already established by Regulation (EEC) No 822/87 and Council Regulation (EEC) No 823/87 of 16 March 1987 laying down special provisions relating to quality wines produced in specified regions ⁽⁵⁾, as amended by Regulation (EEC) No 2043/89 ⁽⁶⁾;

Whereas certain terms and details have a commercial value or can contribute to the prestige of the product offered for sale without being absolutely necessary; whereas the use of such terms should be permitted provided that they are justified and are not misleading as regards the quality of the product; whereas, however, in view of the specific nature of certain of these terms, Member States should be empowered to limit the options offered by Community legislation to the parties concerned;

Whereas Commission Regulation (EEC) No 997/81 of 26 March 1981 laying down detailed rules for the description and presentation of wines and grape musts ⁽⁷⁾, as last amended by Regulation (EEC) No 2776/90 ⁽⁸⁾, has

Whereas, to provide the consumer with better information on the origin of wines made from a mixture of grapes or by the *coupage* of products originating in several Member States, the height of the lettering to be used for the words 'blend of wines from various countries of the European

⁽²⁾ OJ No L 132, 23. 5. 1990, p. 19.

⁽³⁾ OJ No L 232, 9. 8. 1989, p. 13.

⁽⁴⁾ OJ No L 378, 27. 12. 1989, p. 12.

⁽⁵⁾ OJ No L 84, 27. 3. 1987, p. 59.

⁽⁶⁾ OJ No L 202, 14. 7. 1989, p. 1.

Communities' should be specified; whereas the same should apply to similar terms laid down for table wines which have been manufactured in a Member State other than that where the grapes were harvested; whereas appropriate provisions on the maximum height of the lettering should also be adopted to ensure that no confusion can arise between certain table wines entitled to a geographical ascription and quality wines produced in specific regions (quality wines psr);

Whereas in order to facilitate implementation of this Regulation, a list of terms denoting superior quality in imported wines and recognized by the Community in accordance with Article 26 (2) (c) of Regulation (EEC) No 2392/89 should be published;

Whereas, so that the consumer may not be misled as regards the origin of wine imported into the Community, it should no longer be possible to put on the label of an imported wine the translation of an expression designating a superior quality which is identical to any designation in German used in accordance with Community rules;

Whereas the nominal volume of containers allowed for putting up wines and grape musts in intra-Community trade is governed by Council Directive 75/106/EEC of 19 December 1974 on the approximation of the laws of the Member States relating to the making-up by volume of certain prepackaged liquids⁽¹⁾, as last amended by Directive 88/316/EEC⁽²⁾; whereas the rules for indicating the nominal volume of the product in question on the label should be specified; whereas, in order to enable products already put up in containers to be disposed of, it should be stipulated that such products may not be sold or put up for sale after the expiry of the transitional periods referred to in the said Directive;

Whereas, the better to inform the consumer, in the case of bottling under contract, the words 'bottled for . . .' should be followed by the name or business name of the bottler within the meaning of Article 4 of Commission Regulation (EEC) No 2202/89 of 20 July 1989 defining the terms 'coupage', 'the turning into wine', 'bottler' and 'bottling'⁽³⁾; whereas, further, if a Member State has provided, in the case of bottling under contract, that the name of the person

who actually bottled the wine for the account of the bottler must be shown, provision must be made to ensure that this is done in clear and express terms;

Whereas the wording on the label relating to the name or business name of the bottler, the consignor or a natural or legal person or group of such persons where such wording refers to an agricultural holding should be specified;

Whereas, in order to prevent the consumer from being misled as to the country in which the product was bottled, it is advisable to specify the official language or languages in which the particulars preceding the name and business name of the bottler should be indicated on the label;

Whereas it is now compulsory for wine bottle labels to indicate the Member State in which bottling was carried out; whereas it should therefore be specified how this is to be done; whereas provision is made for certain information to be given in the form of a code; whereas in order to facilitate the updating and reading of these codes they should be determined by the Member State in which the bottler, consignor or importer has his registered place of business;

Whereas, to ensure that the information given to the consumer is objective, the actual alcoholic strength, the total alcoholic strength and the grape must density stated on the label must be made subject to the same rules throughout the Community;

Whereas, in the interest of consumers, it should be specified that the actual or total alcoholic strength stated on the labelling is that determined by analysis; whereas, for the sake of simplicity, however, it should be possible for the figure expressing this alcoholic strength to be rounded off within certain limits;

Whereas it is customary in Germany to indicate the density of grape musts in 'Oechsle degrees'; whereas, in the light of this traditional practice, no further alignment with the Community system for measuring the density of grape must is possible for the moment; whereas the transitional period should therefore be extended until 31 August 1991, during which Germany may provide, in respect of grape must put into circulation on its territory, that the density should be expressed in Oechsle degrees;

Whereas, to prevent any abuse of the only optional terms which are authorized, the cases where recommendations are permissible should be expressly stated;

(1) OJ No L 42, 15. 2. 1975, p. 1.

(2) OJ No L 143, 10. 6. 1988, p. 26.

(3) OJ No L 209, 21. 7. 1989, p. 31.

Whereas, to ensure that a recommendation regarding the acceptability of a wine for religious purposes does not provide a pretext to use oenological practices that are not authorized by Community or national provisions, the conditions under which such a recommendation can be made should be clarified; whereas these conditions should take account of certain religious rites;

Whereas, to ensure control and protection of table wines qualifying for description as 'Landwein', 'vin de pays', 'vino típico', 'ονομασία κατά παράδοση', 'οίνος τοπικός', 'vino de la tierra' or 'vinho regional' and to provide accurate information for the authorities in the Member States responsible for ensuring the observance of Community or national provisions in the wine sector, producer Member States should forward to the Commission all relevant information on the designation of such wines;

Whereas a list of imported wines for which the conditions of production have been recognized as being equivalent to those for a quality wine psr or for a table wine bearing geographical ascription should be published;

Whereas to facilitate implementation of this Regulation the synonyms of names of the vine varieties which may be used to describe wines originating in the Community should be published together with the names and, where appropriate, the synonyms of the vine varieties which may be used to describe imported wines;

Whereas the names of vine varieties which are identical with, or which refer to, the names of geographical units may give rise to confusion regarding the geographical origin of the wine designated by one of these names of varieties; whereas, with a view to reducing this risk, Member States should be allowed to prescribe that such names be shown on the label in lettering that does not exceed a certain size;

Whereas, in order to maintain traditional trade with some non-member countries, exceptions should be provided to Articles 31, 32 and 33 of Regulation (EEC) No 2392/89 for some wines from these countries; whereas, to facilitate Community exports to the United States of America, it should be laid down that the vintage year is to be indicated on the labels of the Community wines in question in accordance with the rules applicable to wine produced in the United States;

Whereas, in so far as the details concerning the method of production, the type of vine or a particular colour are not defined by the rules of the producer Member State or the exporting non-member country, certain rules should be laid

down in this Regulation; whereas the terms in which such information may be given should also be indicated;

Whereas, having regard to the importance of indicating the residual sugar content for the description of wine, the use of the descriptive terms indicating the residual sugar content should have to conform to analytical criteria;

Whereas, where the object is to make a wine better known, information concerning the history of the wine in question, of the bottler's firm or of a firm belonging to a natural or legal person involved in the distribution of the wine should be allowed to be shown on a part of the label that is separate from the part bearing the mandatory information;

Whereas the organization of competitions is an effective way of encouraging wine producers and dealers to endeavour to achieve distinction in competition by the quality of the wine which they market; whereas the awards granted to the best wines in such competitions provide valuable information for the consumer; whereas, with a view to ensuring that such competitions take place objectively, certain Community rules which must be complied with by competition organizers should be laid down;

Whereas the information that a wine has been bottled at the wine-growing holding where the grapes from which it was made were harvested and turned into wine, or under equivalent conditions, expresses the idea that all the stages of production have been carried out under the supervision and responsibility of the same natural or legal person, thereby enhancing the prestige of the wine thus obtained in the estimation of some purchasers; whereas the terms which may be used to convey such information should therefore be specified;

Whereas the use of the bottle known as the 'flûte d'Alsace' has traditionally been restricted in France to certain quality wines psr; whereas it would seem appropriate to maintain this restriction without, however, restricting the use of this bottle in the case of wines from other countries;

Whereas bottles of the 'Bocksbeutel' or 'Cantil' type and bottles of a similar type have been in use for a very long time in certain Community regions and in certain third countries; whereas those types of bottles may recall certain characteristics or a particular origin of the wine in question; whereas, owing to the traditional character of such bottle shapes, they should be used exclusively for wines where such use is a fair practice established for a certain number of years and is considered traditional without however jeopardizing the sale of wine marketed in such types of bottle; whereas the list of wines which may be put up in such bottles should be published; whereas, in

order to facilitate the switch-over from the arrangements existing in Portugal to those in the Community, Portuguese wines dispatched to other Member States must be exempted from the application of the rules on the use of bottles of the types in question;

Whereas there is a risk of rectified concentrated grape must being used fraudulently to enrich or sweeten wines or other food products; whereas provision should therefore be made that this product may be put into circulation only under strictly defined conditions ensuring effective monitoring of its transport and use;

Whereas, for reasons of hygiene and the protection of public health, certain terms should be prescribed for use on containers for the transport of wines and musts;

Whereas, in order to facilitate checks on the bottling of wines and grape musts, Member States should be authorized, pursuant to the third indent of the second subparagraph of Article 38 (1) of Regulation (EEC) No 2392/89, to prescribe or to permit a statement of the date of bottling;

Whereas under Article 43 (2) of Regulation (EEC) No 2392/89 Member States may allow the use of the word 'wine' accompanied by the name of a fruit and in the form of a composite name to describe products obtained by the fermentation of fruits other than grapes and by other composite names including the word 'wine'; whereas provisions should be made to avoid any confusion with other wine products;

Whereas, in order to avoid difficulty as regards exports of wine to the United States of America, a rule should be laid down about the vintage year which may be printed on the label;

Whereas transitional measures are required to cover products of which the description and presentation does not comply with the relevant provisions;

Whereas, for the sake of simplicity, certain provisions of Regulation (EEC) No 2392/89 and of this Regulation should not apply to small quantities of wine as defined under Council Regulation (EEC) No 2390/89 of 24 July 1989 laying down general rules for the import of wines, grape juice and grape must⁽¹⁾, as last amended by Regulation (EEC) No 1772/90⁽²⁾;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:

Article 1

1. The mandatory information on the label required by Articles 2 (1), 11 (1), 20 (1), 25 (1), 26 (1) and 27 (1) of Regulation (EEC) No 2392/89, and that made mandatory by the Member States under Articles 3 (2), 12 (2) and 21 (2) or by the Commission under Article 28 (3) of that Regulation:

- shall be grouped together in the same field of vision on one or more labels affixed to the same container or directly on the container itself, and
- shall be in lettering which is clear, legible, indelible and sufficiently large to show up clearly against the background on which it is printed and such as to be clearly distinguishable from all other writing and designs on the label.

However, the mandatory information relating to the importer may be outside the field of vision in which the other mandatory information is contained.

2. The optional information on the label mentioned in Articles 2 (2) and (3), 11 (2), 20 (2), 25 (2), 26 (2) and 27 (2) of Regulation (EEC) No 2392/89 may:

- appear on the same label as the mandatory information or on one or more additional labels,
- or
- be printed directly on the container itself.

However, the optional information referred to in Article 2 (3) (i) of the said Regulation, namely, the terms 'Landwein', 'vin de pays', 'vino típico', 'vino de la tierra', 'ονομασία κατά παράδοση', 'οίνος τοπικός' and 'vinho regional', shall be grouped together with the mandatory information referred to in the first subparagraph of paragraph 1.

Article 2

COUNCIL REGULATION (EEC) No 1576/89

of 29 May 1989

laying down general rules on the definition, description and presentation of spirit drinks

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 100a thereof,

Having regard to the proposal from the Commission ⁽¹⁾,

In cooperation with the European Parliament ⁽²⁾,

Having regard to the opinion of the Economic and Social Committee ⁽³⁾,

Whereas at the moment there are no specific Community provisions governing spirit drinks, in particular as concerns the definition of these products and the requirements relating to their description and presentation; whereas, given the economic importance of these products, it is necessary, in order to assist the functioning of the common market, to lay down common provisions on this subject;

Whereas spirit drinks constitute a major outlet for Community agriculture; whereas this outlet is largely the result of the reputation which these products have acquired throughout the Community and on the world market; whereas this reputation can be attributed to the quality of traditional products; whereas a certain quality standard should therefore be maintained for the products in question if this outlet is to be preserved; whereas the appropriate means of maintaining this quality standard is to define the products in question taking into account the traditional practices on which their reputation is based; whereas, moreover, the terms thus defined should be used only for products of the same quality as traditional products so as to prevent their being devalued;

Whereas Community rules should reserve, for certain territories among which certain countries may, by way of exception, appear, the use of geographical designations referring to them, provided that the stages of production during which the finished product acquires its characteristics and definitive properties are completed in the geographical area in question; whereas, by thus conferring exclusive rights on the producers concerned, the Community rules will ensure that the designations in question continue to serve as indications of provenance and will prevent them from entering the public domain and becoming generic terms; whereas the designations in question also perform the function of informing the consumer as to the provenance of products characterized by the raw materials used or by the special processes employed in their manufacture;

Whereas the normal and customary means of informing the consumer is to include certain information on the label; whereas the labelling of spirit drinks is subject to the general rules laid down in Council Directive 79/112/EEC of 18 December 1978 on the approximation of the laws of the Member States relating to labelling, presentation and advertising of foodstuffs ⁽⁴⁾, as last amended by Directive 86/197/EEC ⁽⁵⁾; whereas, in view of the nature of the products in question and so that the consumer may have fuller information, specific provisions additional to these general rules should be adopted and whereas, in particular, there should be incorporated, in the definition of products, concepts relating to maturation and minimum alcoholic strength for release for human consumption;

Whereas, although Directive 79/112/EEC requires the printing of certain particulars on the labelling, it is somewhat lacking in clarity as regards the place of manufacture; whereas this concept is of particular importance in the sector of the drinks concerned owing to the fact that the consumer often makes an association between the drinks in question and the place of its manufacture; whereas the absence of such an indication may give the consumer the impression of a false origin; whereas this danger should be avoided by

⁽¹⁾ OJ No C 189, 23. 7. 1982, p. 7 and OJ No C 269, 25. 10. 1986, p. 4.

⁽²⁾ Opinion published in OJ No C 127, 14. 5. 1984, p. 175 and Decision of 24 May 1989 (not yet published in the Official Journal).

⁽³⁾ OJ No C 124, 9. 5. 1983, p. 16.

⁽⁴⁾ OJ No L 33, 8. 2. 1979, p. 1

⁽⁵⁾ OJ No L 144, 29. 5. 1986, p. 38

making it obligatory, in certain cases, to state the place of manufacture on the labelling;

Whereas additional requirements should, in certain cases, also be laid down; whereas, in particular, when ethyl alcohol is used it should be required that it be solely of agricultural origin, as is already customary in the Community, so as to continue to ensure a major outlet for basic agricultural products;

Whereas Council Directive 80/778/EEC of 15 July 1980 relating to the quality of water intended for human consumption⁽¹⁾, and Council Directive 80/777/EEC of 15 July 1980 on the approximation of the laws of the Member States relating to the exploitation and marketing of natural mineral waters⁽²⁾, as last amended by the Act of Accession of Spain and Portugal, lay down the characteristics of the water which may be used in foodstuffs; whereas reference should be made thereto:

Whereas Council Directive 80/388/EEC of 22 June 1988 on the approximation of the laws of the Member States relating to flavourings for use in foodstuffs and to source materials for their production⁽³⁾ puts forward definitions of various terms liable to be used in connection with flavouring; whereas the same terminology should be used in this Regulation;

Whereas specific provisions should be adopted concerning description and presentation for imported spirit drinks, bearing in mind the Community's commitments in its relations with third countries;

Whereas, in order to defend the reputation of Community products on the world market, the same rules should be extended to exported products, except where there are contrary provisions, bearing in mind traditional habits and practices;

Whereas it is preferable to act by way of a Regulation in order to ensure the uniform and simultaneous implementation of the measures in question;

Whereas, to simplify and expedite the procedure, the Commission should be entrusted with adopting implementing measures of a technical nature; whereas, for this purpose, provision should be made for a procedure whereby the Member States and the Commission can cooperate closely within an implementation committee;

Whereas transitional measures are necessary to facilitate the changeover to the system introduced by this Regulation,

HAS ADOPTED THIS REGULATION:

Article 1

1 This Regulation lays down the general rules on the definition, description and presentation of spirit drinks

2 For the purposes of this Regulation spirit drink shall mean an alcoholic liquid:

- intended for human consumption,
- having particular organoleptic qualities and, except in the case of the products listed under point I of Annex III, a minimum alcoholic strength of 15 % vol, and
- produced
 - either directly by the distillation, with or without added flavourings, of natural fermented products, and/or by the maceration of vegetable substances and/or the addition of flavourings, sugars or other sweetening products listed in paragraph 3 (a) and/or other agricultural products to ethyl alcohol of agricultural origin and/or to distillate of agricultural origin and/or to spirit as defined in this Regulation
 - or by the mixture of a spirit drink with:
 - one or more other spirit drinks,
 - ethyl alcohol of agricultural origin, distillate of agricultural origin or spirit,
 - one or more alcoholic drinks,
 - one or more drinks

However, drinks falling within CN codes 2203 00, 2204, 2205, 2206 00 and 2207 shall not be considered spirit drinks

(h) ethyl alcohol of agricultural origin:

ethyl alcohol which possesses the properties listed in Annex I to this Regulation and has been obtained by the distillation, after alcoholic fermentation, of agricultural products listed in Annex II to the Treaty, excluding spirit drinks as defined in paragraph 2. Where reference is made to the raw material used, the alcohol must be obtained solely from that raw material;

(i) distillate of agricultural origin:

an alcoholic liquid which is obtained by the distillation, after alcoholic fermentation, of agricultural products listed in Annex II to the Treaty but which does not have the properties of ethyl alcohol as defined in (h) or of a spirit drink but still retains the aroma and taste of the raw materials used. Where reference is made to the raw material used, the distillate must be obtained solely from that raw material;

4. Definition of different categories of spirit drinks

For the purposes of this Regulation the following terms shall have the meanings indicated:

(a) Rum:

(1) A spirit drink produced exclusively by alcoholic fermentation and distillation, either from molasses or syrup produced in the manufacture of cane sugar or from sugar-cane juice itself and distilled at less than 96 % vol so that the distillate has the discernible specific organoleptic characteristics of rum.

(2) The spirit produced exclusively by alcoholic fermentation and distillation of sugar-cane juice which has the aromatic characteristics specific to rum and a content of volatile substances equal to or exceeding 225 grams per hectolitre of alcohol of 100 % vol. This spirit may be marketed with the word 'agricultural' qualifying the designation 'rum' accompanied by any of the geographical designations of the French Overseas Departments as listed in Annex II.

(b) Whisky or whiskey:

A spirit drink produced by the distillation of a mash of cereals

- saccharified by the diastase of the malt contained therein, with or without other natural enzymes,

and matured for at least three years in wooden casks not exceeding 700 litres capacity.

(c) Grain spirit:

- (1) A spirit drink produced by the distillation of a fermented mash of cereals and having organoleptic characteristics derived from the raw materials used
- 'Grain spirit' may be replaced by *Korn* or *Kornbrand*, for the drink produced in Germany and in regions of the Community where German is one of the official languages provided that this drink is traditionally produced in these regions and if the grain spirit is obtained there without any additive:
- either exclusively by the distillation of a fermented mash of whole grains of wheat, barley, oats, rye or buckwheat with all their component parts,
 - or by the redistillation of a distillate obtained in accordance with the first subparagraph.
- (2) For a grain spirit to be designated 'grain brandy', it must have been obtained by distillation at less than 95% vol from a fermented mash of cereals, presenting organoleptic features deriving from the raw materials used.

(d) Wine spirit:

A spirit drink

- produced exclusively by the distillation at less than 86% vol of wine or wine fortified for distillation or by the redistillation of a wine distillate at less than 86% vol,
- containing a quantity of volatile substances equal to or exceeding 125 grams per hectolitre of 100% vol alcohol, and
- having a maximum methyl alcohol content of 200 grams per hectolitre of 100% vol alcohol.

Where this drink has been matured, it may continue to be marketed as 'wine spirit' if it has matured for as long as, or longer than, the period stipulated for the product referred to in (c).

(e) Brandy or Weinbrand:

A spirit drink

- produced from wine spirit, whether or not blended with a wine distillate distilled at less than 94,8% vol provided that the said distillate does not exceed a maximum of 50% by volume of the finished product,

(f) Grape marc spirit or grape marc:

(1) (a) A spirit drink

- produced from grape marc fermented and distilled either directly by water vapour, or after water has been added; a percentage of lees that is to be determined in accordance with the procedure laid down in Article 15 may be added to the marc, the distillation being carried out in the presence of the marc itself at less than 86% vol. Redistillation at the same alcoholic strength is authorized,
- containing a quantity of volatile substances equal to or exceeding 140 grams per hectolitre of 100% vol alcohol and having a maximum methyl alcohol content of 1 000 grams per hectolitre of 100% vol alcohol.

(b) However, during the transitional period provided for Portugal in the 1985 Act of Accession, subparagraph (a) shall not preclude the marketing in Portugal of grape marc spirit produced in Portugal and having a maximum methyl alcohol content of 1 500 grams per hectolitre of 100% vol alcohol.

(h) Raisin spirit or raisin brandy:

A spirit drink produced by the distillation of the product obtained by the alcoholic fermentation of extract of dried grapes of the 'Corinth Black' or 'Malaga muscat' varieties, distilled at less than 94,5% vol, so that the distillate has an aroma and taste derived from the raw material used.

(i) Fruit spirits:

(1) (a) Spirit drinks

- produced exclusively by the alcoholic fermentation and distillation of fleshy fruit or must of such fruit, with or without stones,
- distilled at less than 86% vol so that the distillate has an aroma and taste derived from the fruits distilled,

- (c) Drinks thus defined shall be called 'spirit' preceded by the name of the fruit, such as: cherry spirit or *kirsch*, plum spirit or *slivovitz*, mirabelle, peach, apple, pear, apricot, fig, citrus or grape spirit or other fruit spirits. They may also be called *wasser*, with the name of the fruit.

The name *Williams* may be used only to describe pear spirit produced solely from pears of the 'Williams' variety.

Whenever two or more fruits are distilled together, the product shall be called 'fruit spirit'. The name may be supplemented by that of each fruit, in decreasing order of quantity used.
- (d) The cases and conditions in which the name of the fruit may replace the name 'spirit' preceded by the name of the fruit in question shall be determined in accordance the procedure laid down in Article 15.
- (2) The name 'spirit' preceded by the name of the fruit may also be used for spirit drinks produced by macerating, within the minimum proportion of 100 kilograms of fruit per 20 litres of 100 % vol alcohol, certain berries and other fruit such as raspberries, blackberries, bilberries and others, whether partially fermented or unfermented, in ethyl alcohol of agricultural origin or in spirit or distillate as defined in this Regulation, followed by distillation.

The conditions for using the name 'spirit' preceded by the name of the fruit with a view to avoiding confusion with the fruit spirits in point 1 and the fruit in question shall be determined by the procedure laid down in Article 15.

- (3) The spirit drinks obtained by macerating unfermented whole fruit such as that referred to in point 2 in ethyl alcohol of agricultural origin, followed by distillation, may be called 'geist', with the name of the fruit

- (j) Cider spirit, cider brandy or perry spirit:

- (l) Fruit spirit drinks:

- (1) Spirit drinks obtained by macerating fruit in ethyl alcohol of agricultural origin and/or in distillate of agricultural origin and/or in spirit as defined in this Regulation and within a minimum proportion to be determined by means of the procedure laid down in Article 15.

The flavouring of these spirit drinks may be supplemented by flavouring substances and/or flavouring preparations other than those which come from the fruit used. These flavouring substances and flavouring preparations are defined respectively in Article 1 (2) (b) (i) and (c) of Directive 88/388/EEC. However, the characteristic taste of the drink and its colour must come exclusively from the fruit used.

- (2) The drinks so defined shall be called 'spirit drinks' or 'spirit' preceded by the name of the fruit. The cases and conditions in which the name of the fruit may replace those names shall be determined by means of the procedure laid down in Article 15.

However, the name *Pacharán* may be used solely for the 'fruit spirit drink' manufactured in Spain and obtained by macerating sloes (*prunus spinosa*) within the minimum proportion of 250 grams of fruit per litre of pure alcohol

- (m) Juniper-flavoured spirit drinks:

- (1) (a) Spirit drinks produced by flavouring ethyl alcohol of agricultural origin and/or grain spirit and/or grain distillate with juniper (*juniperus communis*) berries.

Other natural and/or nature-identical flavouring substances as defined in Article 1 (2) (b) (i) and (ii) of Directive 88/388/EEC and/or flavouring preparations defined in Article 1 (2) (c) of that Directive, and/or aromatic plants or parts of aromatic plants may be used in addition, but the organoleptic characteristics of juniper must be discernible, even if they are sometimes attenuated.

(b) The drinks may be called *Wacholder*, *ginebra*, or *genebra*. Use of these names is to be determined in accordance with the procedure laid down in Article 15

(c) The alcohols used for the spirit drinks called *genièvre*, *jenever*, *genever* and *peket*, must be organoleptically suitable for the manufacture of the aforementioned products and have a maximum methyl content of 5 grams per hectolitre of 100% vol alcohol and a maximum aldehyde content expressed as acetaldehyde of 0,2 grams per hectolitre of 100% vol alcohol. In the case of such products, the taste of juniper berries need not be discernible.

(2) (a) The drink may be called 'gin' if it is produced by flavouring organoleptically suitable ethyl alcohol of agricultural origin with natural and/or nature-identical flavouring substances as defined in Article 1 (2) (b) (i) and (ii) of Directive 88/388/EEC and/or flavouring preparations as defined in Article 1 (2) (c) of that Directive so that the taste is predominantly that of juniper.

(b) The drink may be called 'distilled gin' if it is produced solely by redistilling organoleptically suitable ethyl alcohol of agricultural origin of an appropriate quality with an initial alcoholic strength of at least 96% vol in stills traditionally used for gin, in the presence of juniper berries and of other natural botanicals provided that the juniper taste is predominant. The term 'distilled gin' may also apply to a mixture of the product of such distillation and ethyl alcohol of agricultural origin with the same composition, purity and alcoholic strength. Natural and/or nature-identical flavouring substances and/or flavouring preparations as specified at (a) may also be used to flavour distilled gin. London gin is a type of distilled gin.

Gin obtained simply by adding essences or flavourings to ethyl alcohol of agricultural origin shall not qualify for the description 'distilled gin'.

(n) Caraway-flavoured spirit drinks:

(1) Spirit drinks produced by flavouring ethyl alcohol of agricultural origin with caraway (*Carum carvi* L.).

Other natural and/or nature-identical flavouring substances as defined in Article 1 (2) (b) (i) and (ii)

of Directive 88/388/EEC and/or flavouring preparations as defined in Article 1 (2) (c) of that Directive may additionally be used but there must be a predominant taste of caraway.

(2) (a) The spirit drinks defined in point 1 may also be called *akvavit* or *aquavit* if they are flavoured with a distillate of plants or spices.

Other flavouring substances specified in the second subparagraph of point 1 may be used in addition, but the flavour of these drinks is largely attributable to distillates of caraway and/or dill (*Anethum graveolens* L.) seeds, the use of essential oils being prohibited.

(b) The bitter substances must not obviously dominate the taste; the dry extract content may not exceed 1,5 grams per 100 millilitres.

(o) Aniseed-flavoured spirit drinks:

(1) Spirit drinks produced by flavouring ethyl alcohol of agricultural origin with natural extracts of star anise (*Illicium verum*), anise (*Pimpinella anisum*), fennel (*Foeniculum vulgare*), or any other plant which contains the same principal aromatic constituent, using one of the following processes:

- maceration and/or distillation,
- redistillation of the alcohol in the presence of the seeds or other parts of the plants specified above,
- addition of natural distilled extracts of aniseed-flavoured plants,
- a combination of these three methods.

Other natural plant extracts or aromatic seed may also be used, but the aniseed taste must remain predominant.

(2) For an aniseed-flavoured spirit drink to be called 'pastis' it must also contain natural extracts of liquorice root (*Glycyrrhiza glabra*), which implies the presence of the colorants known as 'chalcones' as well as glycyrrhizic acid, the minimum and maximum levels of which must be 0,05 and 0,5 grams per litre respectively.

Pastis contains less than 100 grams of sugar per litre and has a minimum and maximum anethole level of 1,5 and 2 grams per litre respectively.

(3) For an aniseed-flavoured spirit drink to be called 'ouzo' it must:

- have been produced exclusively in Greece,

12. 6. 89

Official Journal of the European Communities

No L 160/7

- have been produced by blending alcohols flavoured by means of distillation or maceration using aniseed and possibly fennel seed, mastic from a *lentiscus* indigenous to the island of Chios (*Pistacia lentiscus Chia* or *latifolia*) and other aromatic seeds, plants and fruits; the alcohol flavoured by distillation must represent at least 20 % of the alcoholic strength of the *ouzo*.

That distillate must:

- have been produced by distillation in traditional discontinuous copper stills with a capacity of 1 000 litres or less,
- have an alcoholic strength of not less than 55 % vol and not more than 80 % vol

Ouzo must be colourless and have a sugar content of 50 grams or less per litre.

- (4) For an aniseed-flavoured spirit drink to be called *anis*, its characteristic flavour must be derived exclusively from anise (*pimpinella anisum*) and/or star anise (*illicium verum*) and/or fennel (*foeniculum vulgare*). The name '*distilled anis*' may be used if the drink contains alcohol distilled in the presence of such seeds, provided such alcohol constitutes at least 20 % of the drink's alcoholic strength.

(p) Bitter-tasting spirit drinks or *bitter*:

Spirit drinks with a predominantly bitter taste produced by flavouring ethyl alcohol of agricultural origin with natural and/or nature-identical flavouring substances as defined in Article 1 (2) (b) (i) and (ii) of Directive 88/388/EEC and/or flavouring preparations as defined in Article 1 (2) (c) of that Directive

The drinks may also be marketed as '*amer*' or *bitter* with or without another term

This provision shall not affect the possible use of the terms '*amer*' for *bitter* for products not covered by this Article.

(q) Vodka:

A spirit drink produced by either rectifying ethyl alcohol of agricultural origin or filtering it through activated charcoal, possibly followed by straightforward distillation or an equivalent treatment, so that the organoleptic characteristics of the raw materials used are selectively reduced. The product may be given special organoleptic characteristics, such as a mellow taste, by the addition of flavouring.

(r) Liqueur:

(1) A spirit drink:

- having a minimum sugar content of 100 grams per litre expressed as invert sugar, without prejudice to a different decision taken in accordance with the procedure laid down in Article 15,

- produced by flavouring ethyl alcohol of agricultural origin or a distillate of agricultural origin or one or more spirit drinks as defined in this Regulation or a mixture of the above, sweetened and possibly with the addition of products of agricultural origin such as cream, milk or other milk products, fruit, wine or flavoured wine.

- (2) The name '*crème de*' followed by the name of a fruit or the raw material used, excluding milk products, shall be reserved for liqueurs with a minimum sugar content of 250 grams per litre expressed as invert sugar.

The name '*crème de cassis*' shall, however, be reserved for blackcurrant liqueurs containing at least 400 grams of sugar, expressed as invert sugar, per litre.

(s) Egg liqueur/*advocaat/avocai/Advokat*:

A spirit drink whether or not flavoured, obtained from ethyl alcohol of agricultural origin, the ingredients of which are quality egg yolk, egg white and sugar or honey. The minimum sugar or honey content must be 150 grams per litre. The minimum egg yolk content must be 140 grams per litre of the final product.

(t) Liqueur with egg:

A spirit drink whether or not flavoured, obtained from ethyl alcohol of agricultural origin, the ingredients of which are quality egg yolk, egg white and sugar or honey. The minimum sugar or honey content must be 150 grams per litre. The minimum egg yolk content must be 70 grams per litre of the final product.

(a) the conditions under which the labelling may specify a maturation period and those relating to the raw materials used;

(b) the conditions governing the use of sales descriptions which imply that the product has been matured, together with any exceptions and the conditions for equivalent controls;

(c) the special provisions governing the use of terms referring to a certain property of the product, such as its history or the method by which it is prepared;

(d) the rules governing the labelling of products in containers not intended for the final consumer, including any derogations from the labelling rules to take account in particular of warehousing and transport.

4. The particulars provided for in this Regulation shall be given in one or more official languages of the Communities in such a way that the final consumer can readily understand each item, unless purchasers are provided with the information by other means

5. The geographical designations listed in Annex II, the terms in *italics* in Article 1 (4) and the designation *Rum-Verschnitt* must not be translated.

However, at the request of the Member State of consumption, it may be decided, by the procedure laid down in Article 14, that the said terms in *italics* and, in particular, *raisin brandy* shall be supplemented by equivalent terms so that consumers of the said Member State are not misled.

6. In the case of products originating in third countries, use of an official language of the third country in which the product has been made shall be authorized if the particulars provided for in this Regulation are also given in an official language of the Communities in such a way that the final consumer can readily understand each item.

7. Without prejudice to Article 12, in the case of products originating in the Community and intended for export the particulars provided for in this Regulation may be repeated in another language; this does not apply to the particulars referred to in paragraph 5.

8. In accordance with the procedure laid down in Article 15, the Commission may determine the cases and/or the spirit drinks for which a reference to the place of manufacture and/or the origin and/or the source shall be compulsory, as well as the attendant rules

Article 8

In order to be marketed for human consumption, spirit drinks produced in the Community may not be described by associating word or phrases such as 'like', 'type', 'style', 'made', 'flavour' or any other similar indications with any of the sales descriptions mentioned in this Regulation.

Article 9

1. The spirit drinks listed below:

— rum,

— *whisky* and *whiskey*,

— grain spirit/*grain brandy*,

— wine spirit and *brandy*,

— grape marc spirit,

— raisin spirit,

— fruit spirit other than products defined in Article 1 (4) (i) (2),

— cider spirit, *cider brandy* and perry spirit

may not bear in any form whatsoever in their presentation the generic name reserved for the above drinks if they contain added ethyl alcohol of agricultural origin.

2. However, paragraph 1 shall not prevent marketing, for human consumption in the Community, of the product manufactured in Germany and obtained by mixing rum and alcohol. A minimum proportion of 5% of the alcohol contained in the final product called *Rum-Verschnitt* must come from rum. Where this product is sold outside the German market, its alcoholic composition must appear on the label.

As regards the labelling and presentation of the product *Rum-Verschnitt*, the word *Verschnitt* must appear on the packaging (on the bottle or wrapping) in characters of the same type, size and colour as, and on the same line as, the word *Rum* and, in the case of bottles, on the front label.

Article 10

1. The Member States shall take the measures necessary to ensure that Community provisions relating to spirit drinks

are complied with. They shall appoint one or more agencies to monitor compliance with these provisions.

In the case of the products listed in Annex II, it may be decided in accordance with the procedure laid down in Article 14 that such supervision and protection shall be effected, for the purposes of movement within the Community, by means of commercial documents verified by the administration and by the keeping of appropriate registers.

2. For the spirit drinks listed in Annex II and exported, the Council, acting by a qualified majority on a proposal from the Commission, shall establish a system of authentication documents to eliminate fraudulent practices and counterfeits. This system is intended to replace the existing national system. It must offer at least the same degree of certainty as those national systems, subject to Community rules and in particular those relating to competition.

Until such time as the system referred to in the preceding subparagraph has been introduced, the Member States may retain their own authentication systems provided that these comply with Community rules.

3. The Council, acting by a qualified majority on a proposal from the Commission, shall adopt the necessary measures for the uniform application of Community provisions in the spirit drinks sector, particularly with regard to controls and relations between the competent bodies of the Member States.

4. Member States and the Commission shall communicate to each other the information necessary for implementing this Regulation. Detailed rules for the communication and distribution of such information shall be adopted in accordance with the procedure laid down in Article 14.

Article 11

1. Subject to paragraph 2, to be marketed for human consumption within the Community, imported spirit drinks bearing a geographical designation or a name other than those referred to in Article 1 (4) may, subject to reciprocal arrangements, qualify for the supervision and protection referred to in Article 10.

The first subparagraph shall be implemented by agreements to be negotiated and concluded with the third countries concerned under the procedure laid down in Article 113 of the Treaty.

Detailed rules and the list of products referred to in the first subparagraph shall be adopted in accordance with the procedure laid down in Article 15.

2. This Regulation shall be without prejudice to the importing and marketing for human consumption within the Community under their names of origin of specific spirit drinks originating in third countries for which tariff

concessions are granted by the Community either under GATT or under bilateral agreements and the conditions for the admission of which have been laid down in Community regulations.

Article 12

1. Spirit drinks intended for export must comply with the provisions of this Regulation.

2. However, the Member States may decide on derogations as regards the provisions of Article 4 (2), (3), (4) and (6) but not in respect of the spirit drinks listed in Annexes II and III or spirit drinks with reserved descriptions.

3. Derogations from the provisions in Article 3 relating to the alcoholic strength for release for human consumption may also be decided on in the case of:

- spirit drinks covered by Article 1 (2) and (4),
- spirit drinks covered by Annex II, in particular where this is required under the law of the importing third country,

at the request of the producer Member State in accordance with the procedure laid down in Article 14.

4. Derogations from rules on designation and presentation, other than the names provided for in Article 1 (2) and (4) and in Annexes II and III and without prejudice to Articles 8 and 9 may be authorized by the Member States:

- where the legislation in force in the importing third country so requires,
- in cases which are not covered by the first indent, with the exception of some indications to be decided on in accordance with the procedure laid down in Article 14.

5. The derogations authorized by the Member States shall be notified to the Commission and to the Member States.

Article 13

1. An Implementation Committee for Spirit Drinks, hereinafter referred to as the committee, shall be set up consisting of representatives of the Member States and chaired by a representative of the Commission.

2. Within the committee the votes of Member States shall be weighted in accordance with Article 148 (2) of the Treaty. The chairman shall not vote.

Article 14

1. Where the procedure laid down in this Article is to be followed, the chairman shall refer the matter to the committee either on his own initiative or at the request of the representative of a Member State.

2. The representative of the Commission shall submit a draft of the measures to be adopted. The committee shall deliver its opinion on such measures within a period to be set by the chairman according to the urgency of the questions submitted for consideration. An opinion shall be adopted by a majority of 54 votes

3. The Commission shall adopt measures which shall apply immediately. However, if these measures are not in accordance with the opinion of the committee, they shall forthwith be communicated by the Commission to the Council. In that event, the Commission may defer application of the measures for one month.

The Council, acting by a qualified majority, may take a different decision within one month.

Article 15

1. Where the procedure laid down in this Article is to be followed, the chairman shall refer the matter to the committee either on his own initiative or at the request of a representative of a Member State.

2. The representative of the Commission shall submit to the committee a draft of the measures to be taken. The committee shall deliver its opinion on the draft within a time limit which the chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148 (2) of the Treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the representatives of the Member States within the committee shall be weighted in the manner set out in that Article. The chairman shall not vote

3. (a) The Commission shall adopt the measures envisaged if they are in accordance with the opinion of the committee.

(b) If the measures envisaged are not in accordance with the opinion of the committee, or if no opinion is delivered, the Commission shall, without delay, submit to the Council a proposal relating to the measures to be taken. The Council shall act by a qualified majority.

If, on the expiry of three months as from the date of referral to the Council, the Council has not acted, the proposed measures shall be adopted by the Commission.

Article 16

The committee may consider any other question referred to it by its chairman, either on his own initiative or at the request of the representative of a Member State.

Article 17

1. In order to facilitate the changeover from the present arrangements to those introduced by this Regulation, transitional measures shall be adopted in accordance with the procedure laid down in Article 14.

2. Such transitional measures shall be applicable for not more than two years from the date of implementation of this Regulation.

Article 18

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

It shall apply from 15 December 1989, with the exception of Articles 13 to 16, which shall apply as from the entry into force of this Regulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
